RE: HM-232 Compliance

Dear Valued Customer:

We, hereby certify that we are now in compliance with current HM-232 requirements and will be in total compliance with all HM-232 requirements within the timelines specified by this regulation, or as may be amended in the future. Furthermore, we agree that any of our drivers hauling Hazmat will have the necessary Hazmat endorsement on their CDL. We agree to notify you in the event we do not become compliant or in the event of a lapse of such compliance.

The compliance requirements include, but are not limited to, **all Carriers of Hazardous Materials Having:**

- 1) A written security plan in place by September 25, 2013.
- 2) All Hazmat Employees trained on that plan by December 22, 2013. (A Hazmat Employee is any person under a carrier's corporate control {including any independent contractor} who performs any task covered by RSPA's Hazardous Materials Regulations).
- 3) In addition to training on the "specifics" of our security plan, general security awareness training will be provided to employees as part of a 3-year recurrent training, beginning March 25, 2013.
- 4) Compliance with all other requirements of HM-232 that may not be listed here.
